THERMAL MARK

TM-100 Series by Thermal Mark is designed for fresh, frozen and deep frozen applications on small sized trucks.

The compressor is driven by the truck engine. Integrated 240v or 415v electric standby model available.

The TM-100 Series Offers you:

- ▶ **Optimum Performance** for superior cooling & less fuel consumption
- ▶ **High Capacity & Airflow** to ensure even temperature distribution
- ▶ **Exceptional Pull-Down Capacity** after regular door openings
- ▶ **Low Operating Noise** allowing unrestricted deliveries in residential areas
- ▶ **Intelligent & User Friendly** control system with digital in-cab display
- ▶ **Electric Standby** 240v or 415v 3 Phase
- ▶ **Affordable Reliability** knowing your unit will have a long life cycle at a small cost
