THERMAL MARK

TM-500 Series by Thermal Mark is designed for fresh, frozen and deep frozen applications on large sized trucks.

The compressor is driven by the truck engine. Integrated 240 & 415v electric standby model available.

The TM-500 Series Offers you:

- ▶ **Optimum Performance** for superior cooling & less fuel consumption
- ▶ **High Capacity & Airflow** to ensure even temperature distribution
- ▶ **Exceptional Pull-Down Capacity** after regular door openings
- ▶ **Low Operating Noise** allowing unrestricted deliveries in residential areas
- ▶ **Intelligent & User Friendly** control system with digital in-cab display
- ▶ **Electric Standby** 240v or 415v 3 Phase
- ▶ **Afordable Reliability** knowing your unit will have a long life cycle at a small cost

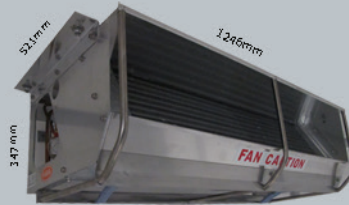

TM-500 Series
Quality you can count on to get the job done!

TM-500 II Condenser Unit
Approx. weight 37kg

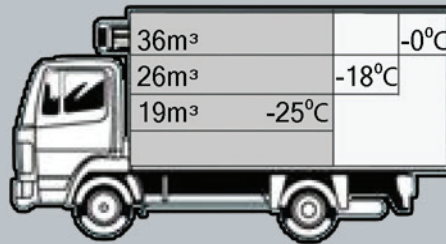

TM-500 ESC Condenser Unit
Approx. weight 133kg
Available in 415v or 240v

Cubic Evaporator 3 Fan
Approx. weight 31kg

Digital In-cab control box with Auto Start function

Based on specific insulation factors
Available in 12v or 24v

Refrigerant Capacity at 38°C Ambient Temperature

Refrigerant Temperature		Road Operation TM-500 II	Electric Operation TM-500 ESC
R-404a	°C	BTU/h	BTU/h
	1.7	16,000	13,500
	-17.8	8,730	6,500
	-29	6,500	4,500
